June 2024

## YOUR ID EXPERTS

For 33 years and counting, DPI has been compiling a vast inventory of exemplars consisting of disposed evidence, as well as both used and new products that we take the time to track down and buy. Just take a look!

So many fires are caused by defective surge suppressors. But who was the manufacturer? No one has the surge suppressor inventory we have, giving us the ability to find the needed match to the bus and ground bars and cord numbers.

Do we have older exemplars? Yes, we do! DPI recently received the remnants of a burned up toaster that would be impossible for most to identify. But we did! We had a successful match – a 1978 model that we bought from a resale shop!

### SUCCESSFUL SUBROGATION HIGHLIGHTS

Washing Machine	\$21,015	\$16,811	\$720

### SAFE AND SECURE STORAGE

DPI is a safe and secure place to store your evidence while awaiting the disposition of your claims. To meet the rising costs of maintaining our 44,000 sq. ft. facility which is under 24 hour surveillance, our storage prices will increase effective July 1<sup>st</sup>. We are confident that even with this increase, our prices are still a bargain.
